

Board Chairman leading the dignitaries to tour the exhibition stands

Flag-raising Ceremony Climaxes 2025 World Standards Day Celebration

A flag-raising ceremony was held at the forecourt of the GSA head office to climax this year's World Standards Day (WSD) celebrations, under the theme: "Shared Vision for a Better World: Spotlight on SDG 17 – Partnerships for the Goals".

The WSD is celebrated annually on October 14 to highlight the vital role standards play in enhancing quality, safety, and efficiency

across all sectors of life. The celebration also serves to recognise and honour the invaluable contributions of experts and professionals worldwide who dedicate their efforts to developing and maintaining these standards that support global progress and sustainable development.

The memorable event brought together stakeholders, partners, dignitaries, media and students from

various institutions to highlight the crucial role of standards in supporting economic growth and resilience.

Staff were clad in specially designed WSD polo shirts.

Vision

To become a customer-focused world-class standards organisation.

Mission

To contribute towards the growth of industry, protect consumers and facilitate trade through standardisation, metrology and conformity assessment.

Core Values

- Excellence
- Customer-focus
- Integrity
- Teamwork

In a speech delivered on behalf of the Minister of Trade, Agribusiness and Industry, Hon. Elizabeth Ofori-Adjare, the Board Chair of the GSA, Mr. Hudu Mogtari, called on manufacturers and industry players to invest in compliance and testing to uphold the highest standards.

He further called on development partners to continue supporting Ghana in strengthening its quality infrastructure to meet the demands of global trade.

He said standardisation reduces trade barriers, lower production costs, and strengthens consumer confidence in cross-border commerce. “As we pursue the Reset Agenda, the GSA partnerships with industry, academia, and development partners, will be critical to ensure that Ghana’s products do not just reach markets across Africa but thrive there,” he stated.

Speaking on behalf of Prof. George Agyei, the Director-General, Mr. Clifford Frimpong, Deputy Director-General in charge of Conformity Assessment, added that the GSA is committed to deepening its engagement with both public and private stakeholders by expanding collaboration with industry and associations to ensure that standards development responds to real market needs.

He noted that “Our collective goal must therefore be to integrate standards into every aspect of national development. Whether in energy, digital, trade, food

safety, construction, or climate action, partnerships built on a foundation of standards are what will move Ghana and the world closer to achieving the SDG's”.

Mrs. Charlotte Hebidzi, the President of the Scientific

Staff Association (SSA) read the WSD message.

The event featured an impressive display by the Trading Standards Inspectors (TSIs). Certificates were presented to students from various tertiary institutions

who participated in the 2024/2025 ARSO Essay competition.

After the ceremony, dignitaries and stakeholders toured the exhibition stands, which showcased a variety of certified Made-in-Ghana products.

Prof. Agyei in a handshake with the Liberian Minister

Liberian Commerce & Industry Minister Leads Delegation to Visit GSA

From Wednesday, October 15 to Friday, October 17, 2025, the Liberian Minister of Commerce & Industry, Hon. Magdalene E. Dagoseh, led a delegation of top officials from the Council of the Liberia Standards Authority (LiSA), including the Director-General, Hon. Stephen Y. Mambu, to pay a visit to the GSA.

The main aim of the visit was to strengthen the long-standing relationship and cooperation between the two institutions.

The Director-General (DG) of the GSA, Professor George Agyei, welcomed the delegation

and expressed the Authority's excitement in meeting them and recalled the long-standing commitment and partnership both countries share.

He said standards are very important for the facilitation of trade between both countries and that it is important for both countries to align.

"We have a MoU which we must implement. We must create an action plan with measurable milestones for both of us so that we can help you develop and grow. When Liberia wins, Ghana wins, so

we'll guide you to stand on your feet," Prof. Agyei stated.

Hon. Dagoseh, for her part, noted that the delegation is happy to visit GSA, adding that Liberia and Ghana share a great history and value the partnership.

She said the visit will provide a unique platform to exchange ideas and serve as a dialogue between the two countries.

"Everyone and everywhere we go, they talk about GSA. We look up to you, and we need you to hold hands and help us grow. We are here to learn from each other and identify areas of partnership

to grow. We want to improve product quality and safety and enhance competitiveness for our Liberian goods, and we know we'll learn a lot from you," she said.

Hon. Mambu also stated that he had learnt a lot from GSA through his exchange programmes he had with the Authority in the past and highly recommended his organisation to use the GSA as a model to establish its institution and appealed to the GSA management to guide his outfit in that regard.

Mr. Clifford Frimpong, the Deputy Director-General in charge of Conformity Assessment (DDG-CAS), took the delegation through the various functions of the Authority.

He revealed during the presentation that he had worked with the current LiSA DG in the past and was excited that finally his organisation had been established as an

Authority in Liberia and will continue to support the LiSA.

The LiSA delegation, on Thursday, October 16, 2025, visited some certified companies to learn how they were applying the standards. The Special Ice Company expressed gratitude to GSA for supporting them during the certification processes,

and noted that due to the process, their products were meeting international standards, therefore translating into profits for the company.

The delegation later toured the GSA to familiarise itself with the organisation's operations and vowed to take some of the lessons gathered to Liberia for implementation.

Group photograph of GSA team and SON delegation

GSA Hosts SON Delegation for Collaborative Exchange on Energy Efficiency, Labelling

The GSA, on Thursday, October 16, 2025, hosted a high-level delegation from the Standards Organisation of Nigeria (SON) at the Head Office to explore avenues for collaboration and knowledge sharing in energy efficiency, conformity assessment, and the development of energy labelling schemes.

The visiting delegation, led by Engr. Enebi Shaibu Onucheyo, Director of the Product Certification Department and Chairman of the Standards Organisation of Nigeria Mandatory Energy Labelling Scheme (SONMELS) Implementation Committee, included Engr. John Bature

Francis, Group Head of Electrical/Electronics and Secretary to the SONMELS Implementation Committee; and Engr. Churchill Ikenna Amankwe, Analyst at the Energy Efficiency Laboratory.

The SON team is in Ghana to gain practical insights from GSA's successful implementation of the Standards and Labelling (S&L) Programme, developed in collaboration with the Energy Commission of Ghana.

This visit forms part of SON's preparations toward establishing the SONMELS, which seeks to operationalise the Nigerian Minimum Energy Performance Standards

(MEPS) for air conditioners, refrigerators, and lighting products.

The delegation was welcomed by Prof. George Agyei, Director-General of the GSA, who was joined by Mr. Clifford Frimpong, Deputy Director-General (Conformity Assessment), and Dr. Awal Mohammed, Deputy Director-General (Operations).

Also present were senior management members of the Authority, including Ms. Joyce Okoree, Director of Certification; Mrs. Nana Pokua Asare-Twerefour, Head of Food, Chemistry and Material Standards Department; Ing. Mawuli Tsaku, Head

of Engineering Department; Mrs. Barbara Wutor, Head of Legal; Mr. Kofi Debrah, APR, Acting Head of Public Relations; Ms. Aseye Sepenu; and Ms. Priscilla Johnson.

As part of the engagement, presentations were delivered by Mr. Evans Asiedu, Head of the Engineering, Building and Basic Standards Department, and Ing. Francis Mensah Akpaloo, Head of the Air Conditioner and Refrigeration Laboratory.

Mr. Asiedu's presentation focused on Energy Standards developed by the GSA, highlighting how Ghana has established Minimum Energy Performance Standards (MEPS) for key appliances such as refrigerators, air conditioners, and lighting systems.

He explained that these standards are designed to reduce energy consumption, promote efficiency, and

ensure that products on the market meet environmental and consumer safety benchmarks. He further elaborated on the GSA's collaboration with the Energy Commission and other agencies to enforce compliance through market surveillance, product testing, and labelling systems that empower consumers to make informed energy choices.

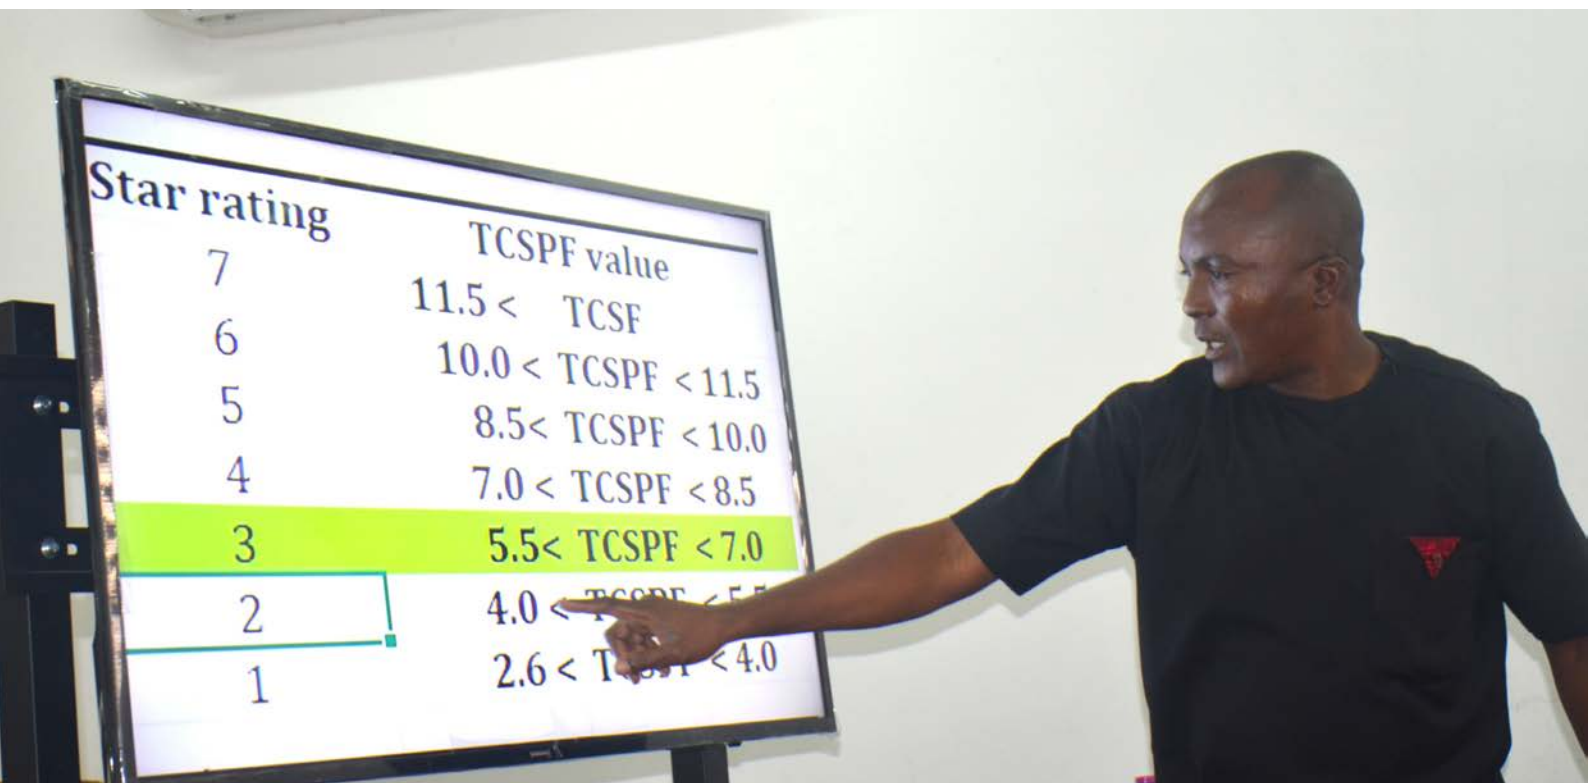

Ing. Akpaloo's presentation focused on Energy Efficiency Testing of air conditioners and refrigerators at GSA's laboratory. He explained the rigorous processes involved in assessing products' energy performance, including the measurement of cooling capacity, power consumption, and energy efficiency ratios.

He also outlined how the laboratory's work supports the enforcement of MEPS and labelling programmes, helping Ghana reduce energy

demand, save costs, and curb carbon emissions.

During the interactive session, the SON delegation sought clarifications on several operational aspects of Ghana's S&L programme, including the nature of tests conducted, the energy rating system, testing costs, conformity assessment procedures, and how non-compliant products are handled.

Prof. Agyei, in his closing remarks, emphasised the importance of regional cooperation in advancing Africa's energy efficiency agenda. He noted that the partnership between GSA and SON aligns with Sustainable Development Goal 17 (Partnerships for the Goals) and reinforces the continent's shared commitment to sustainable industrialisation and environmental stewardship.

Dr. Awal Mohammed

Mr. Samuel Abdulai Jabanyite

New DDGs Assume Office

The President, John Dramani Mahama, has appointed new Deputy Directors-General (DDGs) for the Authority. Dr. Awal Mohammed has been appointed as the Deputy Director-General in charge of Operations (DDG – OPS) while Mr. Samuel Abdulai Jabanyite has been named the new Deputy Director-General – General Services (DDG – GEN).

This was communicated to staff by the Acting Director of Administration, Mr. Abdulai Abubakar, in a statement sent via the corporate email.

The statement said that the appointment of Dr. Mohammed took effect from Monday, October 13, 2025, while Mr Jabanyite assumed office on Thursday, October 16, 2025.

The statement entreated staff to accord the new DDGs the expected co-operation and courtesies, as we collectively strive towards achieving the mandates of the Authority.

GSA Highlights Role of Standards in National Development on GHOne TV

On Wednesday, October 15, 2025, the GSA was featured on GHOne TV's morning show, "GH Today", as part of activities marking the 2025 World Standards Day.

The discussion, hosted by Miss Lily Mohammed, focused on the WSD theme: "Shared Vision for a Better World: Spotlight on SDG 17 – Partnerships for the Goals".

Ing. Mrs. Rachel Amanfu, a Chief Scientific Officer at the Product Certification Department, and Mr. Ali B. Issah, a Scientific Officer at the Standards Directorate, represented the Authority on the show. The two shared insights into how the Authority's work supports

Ghana's economic growth and protect consumers.

Ing. Amanfu said the core mandate of the GSA is to develop and promote standards and perform conformity assessment services, which includes inspection, testing and certification and metrology.

She further explained that the Authority has a dedicated team of factory evaluators who conduct regular inspections to ensure that products meet quality standards and remain safe for public consumption.

Addressing the issue of counterfeit products on the local market, Ing. Amanfu explained that the Marketing Department handles all

complaints with regards to counterfeit products. She also advised viewers to always check for the Mark of Conformity on products before they buy a product, as it assures consumers that the goods have been tested and certified by the GSA.

She added that the GSA regularly publishes a list of certified products on its website for public access and verification.

Ing. Amanfu further explained the importance of product certification and adherence to established standards by producers, noting that every producer is required to have their products certified by GSA in order to comply with

the country's regulatory and legal requirements.

Speaking on how standards affect our daily lives, Mr. Ali explained that standards are designed to work in the background to ensure that goods and services are safe.

"Standards are the reason people gain confidence in the products they use every day," he said, highlighting the inter-agency collaborations that exist between the GSA, other government agencies and academia.

He pointed out that during the standards development process, the GSA engages a wide range of stakeholders, including regulatory bodies, academia, consumer agencies, producers, manufacturers and industry players to ensure

that standards developed reflect national needs.

In his concluding remarks, Mr. Ali emphasised the importance of adhering to standards to build a better and more sustainable world, in line with the WSD theme.

GSA Officers in a photograph with pupils and teachers of Victory Presby School

WSD Celebrations: GSA Educates Students on Importance of Standardisation

As part of the activities to celebrate this year's World Standards Day (WSD), staff from the GSA visited the Victory Presbyterian Church School in Adenta and the University Primary School, Legon, to educate teachers and students on the importance of standards.

They shared with them how standards can guide them in their daily lives and answered various questions posed to them by the schools.

At Victory Presby Church School, Dr. Maxwell Kobe, a Chief Scientific Officer at the Testing Directorate, impressed on the students to

adopt standards in their daily activities.

He encouraged them to look out for the Authority's Certification Mark on products before making purchases as it would ensure that what they are buying had undergone rigorous processes, making it safe for consumption.

The students at the University Primary School were full of excitement upon receiving the GSA staff and asked questions on how they can channel their complaints if they find sub-standard products on the market.

The GSA team advised the students to visit the Authority

anytime and lodge a complaint or visit the Authority's online channels and forward their issues.

The school outreach was successful with the staff calling on management to adopt such practices to aid in creating awareness of GSA's activities to the public.

WSD Celebrations: Pupils of University Primary School Receive Education on Standards

Officers from the GSA, on Friday, October 17, 2025, educated pupils and staff of the University Primary School on the importance of standards in their everyday lives, as part of activities lined up to celebrate the World Standards Day celebration.

The visit aimed to create awareness among the young minds about the significance of standards in ensuring quality and safety.

The GSA team, led by Mrs. Araba Incoom, a Principal Scientific Officer at the Food and Agriculture Department under the Testing Directorate, interacted with about 300 pupils and six tutors, engaging them in a fun and educational session on standards.

The pupils were taken through various aspects of standards to empower them with knowledge on how to make informed decisions about products and services

During the visit, the GSA team donated some educational materials to the school, which were received by the Headmaster, Mr. Eric Sifa, who expressed his gratitude for the gesture and commended the GSA team for the initiative.

He expressed the interest in organising an educational tour to the GSA, in the near future, to afford the children the opportunity to visit some of the Authority's facilities.

Participants at the launch

Eastern Regional Office GSA Participates in FAPSAG Week Celebration Launch

The Eastern Regional Manager of the GSA, Mr. Andrew Lartey, participated in the launch of the Food and Post-Harvest Technology Students' Association (FAPSAG) Week celebration as a special guest at the Koforidua Technical University.

The purpose of the FAPSAG celebration was to foster collaboration, unity, and networking among students, alumni, faculty, with the relevant regulatory bodies, as a means of bridging the gap between academics and the practical field.

The theme for the celebration, "Nurturing Food Technology Students for National Development", spotlighted key panellists from relevant industry stakeholders, including the GSA, for knowledge-sharing and guidance in their academic pursuit and future decisions.

Mr. Lartey, with his extensive expertise in standardisation and quality assurance, provided a clear and detailed walk through on the mandate and services of the Authority.

He emphasised on the importance of Standardisation, Metrology and Conformity Assessment in ensuring product safety, quality, and compliance with national and international standards.

The Regional Manager also shared his professional experience with the students and was presented with a citation and a package after the programme.

The GSA's involvement is expected to assist students and business start-ups with knowledge on standards and the importance of testing and certifying products in the region, to meet quality and standard requirements.

Mr. Lartey and his team being interviewed on Taste FM

Koforidua Office Marks World Standards Day with Media Engagement

The Eastern Regional Office of the GSA, in partnership with Taste FM 90.9, has sensitised listeners and the public on the importance of standards, as part of the World Standards Day (WSD) celebration, which is held on October 14 every year, to honour the efforts of experts worldwide who develop national and international standards.

This year's WSD celebration, held under the theme: "Shared Vision for a Better World: Spotlight on SDG 17 - Partnerships for the Goals", requires partnership between government agencies and the private sector, regulators and innovators, nations, and communities.

The sensitisation, led by the Eastern Regional Manager, Mr. Andrew Lartey and his team, reaffirmed the GSA's mandate to protect consumers, ensure fair trade, contribute to the

growth of industries, and build confidence in Ghana's goods and services.

"WSD reminds us that standards in nature are tools for collaboration, creates common realisation, unify practices across borders and serves as foundations for partnership to drive sustainable developments," he said.

The team advised manufacturers to certify their goods and products with the Authority, to make lives safer, our economy stronger with enhanced competitiveness in regional and international trade, particularly under the African Continental Free Trade Area (AfCFTA).

Furthermore, the team encouraged listeners to employ the services of the regional office to enhance their skills and service delivery to meet market demands of consumers and

enjoy upscale margins in their profit margins.

During the interactive session, the harmonisation drive between the GSA and FDA was announced, as it seeks to eliminate delays in clients' quest to serve consumers and meet market demands on time. The Ghana Digital Conformity pilot project was echoed to encourage professionalism in electrical services.

The team reiterated the regional office's commitment to work tirelessly to ensure safety and competitiveness in the region, with a call on industries to invest in compliance and testing to uphold highest standards for quality and harmonise enforcement approaches, with a continued collaboration with associations to respond to market needs.

Group photograph of stakeholders who attended the WSD celebration

Oti Regional Office

World Standards Day Celebrated in Oti Region

The 2025 World Standards Day (WSD), celebrated under theme: “Shared Vision for a Better World: Spotlight on SDG 17 - Partnerships for the Goals”, has been observed at the Oti Regional Coordinating Council (ORCC).

The WSD, which is marked every year on October 14, was celebrated with a workshop, which was organised by the Oti Regional Office of the GSA, and saw the participation of representatives of various government agencies, departments and trade organisations.

The organisations included the ORCC; Krachi East Municipal Authority (KEMA); Ghana Health Service (GHS); Food and Drugs Authority (FDA); Environmental Health and Sanitation Unit (EHSU); Ghana Enterprises Agency (GEA); Fisheries Commission; Land Use and Spatial Planning Authority (LUSPA); Ghana Tourism Authority (GTA); Department of Social Welfare; Hairdressers Association;

Dressmakers Association, and Yam Sellers Association of Dambai.

Presenting the Keynote address, the Chief Director of the ORCC, Rev. Harry Owoo, who stood in for the Oti Regional Minister, laid emphasis on the importance of standards and the need to apply them to improve the quality of life of people in the region and Ghana in general.

In line with the Sustainable Development Goal (SDG) 17, he touched on the need for the collective effort of all relevant agencies and departments to achieve the Goals.

The GSA Oti Regional Manageress, Madam Stephanie Famiyeh-Addo, in her presentation, said the WSD theme offers an opportunity for the various agencies and departments present to dialogue and brainstorm on ways of collaborating to solve problems and contribute to the effective implementation

of the SDGs that fall within their purview, even beyond the workshop.

She added that some problems are multifaceted in nature, and they can only be resolved with multifaceted solutions. She said the absence of road network in many townships and the numerous homes without sanitary facilities, are just a few of the problems of the Oti Region, and that relevant agencies and departments could collaborate to design schemes to address these problems.

In other presentations, Miss. Esther Boateng and Mr. William Ekow Donkoh, both staff of the Authority, took participants through lists of available standards that are applicable to their scope of work, the certification schemes currently operated by the GSA and a myriad of other services provided by the GSA.

Bono East Regional Officers with students of Techiman SHS

Bono East Regional Office GSA Observes World Standards Day with Students of Techiman SHS

As part of efforts to educate the public on the mandate of Authority and its operations, the Bono East Regional Office, celebrated the World Standards Day with Techiman Senior High School in Techiman.

The event, which took place on October 14, 2025, was held in the school's Assembly Hall with students and teachers in attendance.

The delegation from GSA was led by Mr. Eric Akoto, the Bono East Regional Verification Officer, with two Scientific Officers and five Trading Standards Inspectors (TSIs). During the event, Mr. Eugene Osei Poku, one of the Scientific Officers, made a presentation on the mandate

of GSA and the relevance of its operations.

Mr. Akoto later delivered a lecture on Metrology and its significance in trade. The

programme was concluded with questions and answers from some of the students and teachers.

Upper East Regional Office

GSA Participates in Radio Discussion to Mark World Standards Day in Bolga

The Upper East Regional Manager, Mr. Enoch Akortia, led a team from the GSA to participate in a discussion on GBC-URA Radio in Bolgatanga, as part of activities marking the 2025 World Standards Day, under the theme: “Shared Vision for a Better World: Spotlight on SDG 17 – Partnerships for the Goals”.

The team, which included Ms. Nimatu Mohammed and Alhaji Issah Sanusi, educated the public on the mandate of GSA and the role of standards as a common language that drives national development and global cooperation.

Mr. Akortia reiterated the GSA’s mandate under Act 1078 (2022) and the importance

of the Certification Mark in ensuring compliance and consumer protection. He outlined the benefits of product certification – assuring quality and safety for consumers and promoting growth and confidence for manufacturers.

The GSA team reaffirmed the commitment of the Authority to strengthening partnerships with its stakeholders through standards for a sustainable and inclusive future and underscored that standards are vital enablers of global partnerships, ensuring products, systems and services are safe, reliable, and compatible across borders.

The WSD is celebrated globally every year on October

14 to honour the efforts of experts who develop local and international standards. The celebration, established by the International Organisation for Standardisation (ISO), International Electrotechnical Commission (IEC), and the International Telecommunication Union (ITU), is locally observed by the GSA.

This year’s theme emphasises collaboration as key to achieving sustainable development.

Ashanti Regional Office

Monitoring and Evaluation Officers Reviewed 2024 Work Plan Implementation at Kumasi Office

On Tuesday, October 14, 2025, the Kumasi Office of the Ghana Standards Authority (GSA) hosted two officers from the Monitoring and Evaluation Department of the Head Office for a comprehensive review of the office's 2024 Work Plan implementation. The exercise formed part of GSA's monitoring initiative aimed at assessing performance, verifying ongoing activities, and identifying operational challenges to guide future improvements.

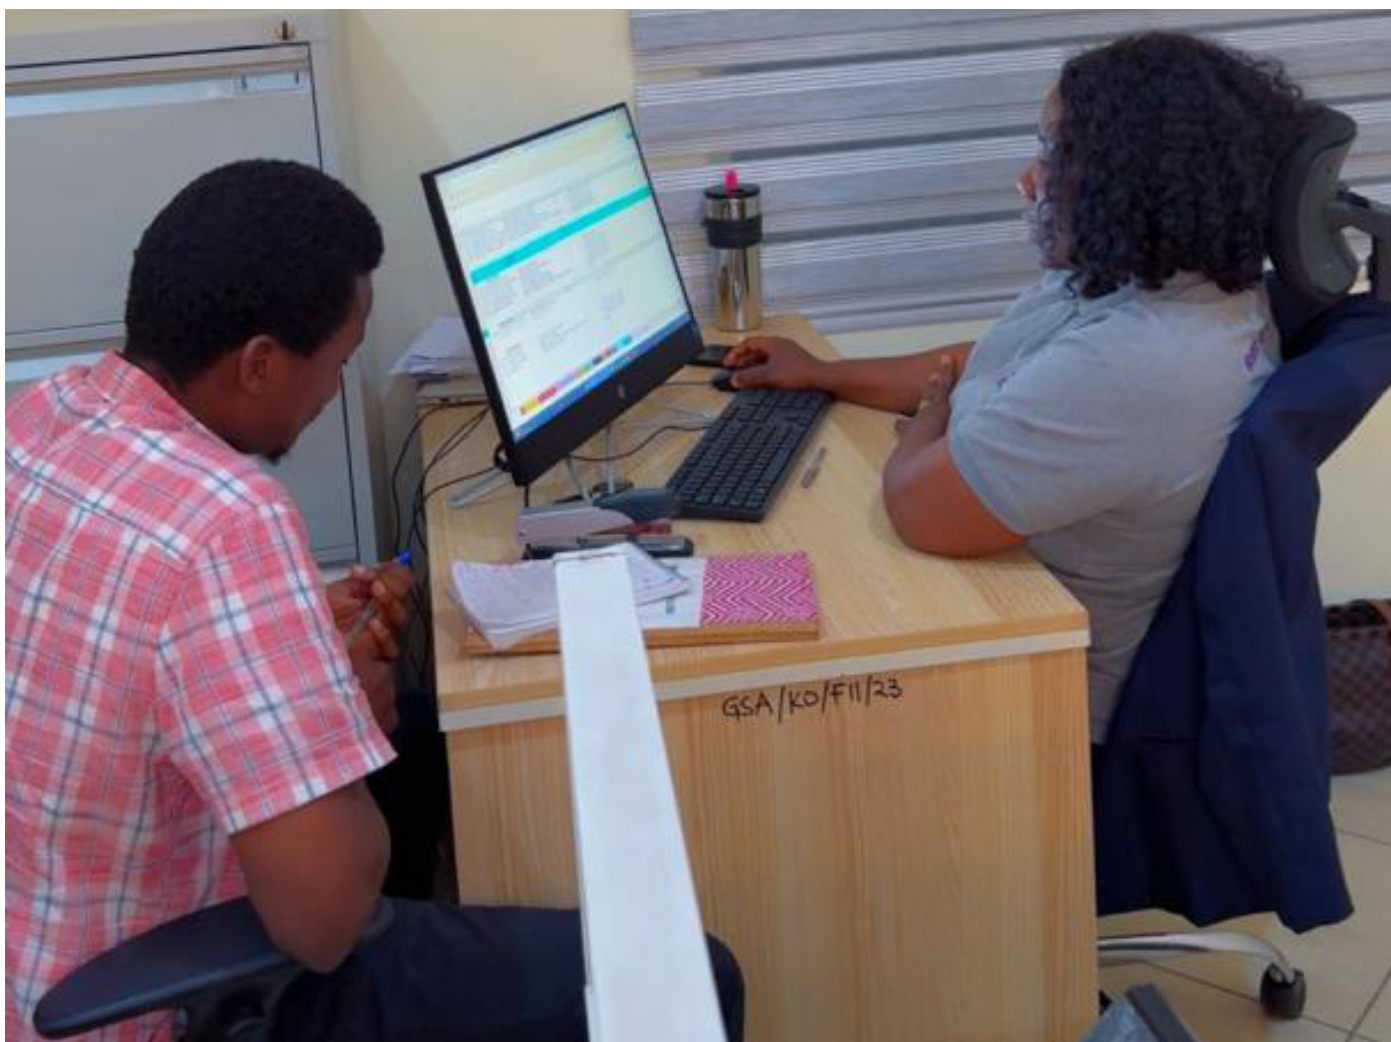

The visiting officers, Mr. Samuel Adarkwa-Addae (Lead) and Mr.

John Adaboe engaged the Kumasi Planning, Monitoring and Evaluation team from 9:00 a.m. to 3:00 p.m., focusing on the extent of implementation of planned activities for the third and fourth quarters of 2024. Their review included verification Report, assessment of operational constraints, and discussions on the way forward.

A wide range of documents were presented for verification, including calibration reports, certificates issued, client registers, logbooks, activity

reports, and internal verification records. These materials provided a clear picture of the office's service delivery and administrative performance throughout the year.

The review revealed that the Kumasi office had made commendable progress in executing its 2024 Work Plan. Most scheduled activities were completed within the expected timelines, with notable achievements in calibration services, product certification, and stakeholder engagement. The Monitoring and Evaluation

officers praised the team's commitment to quality and consistency.

Nonetheless, a few operational challenges were identified. Staff members were open in discussing these issues and expressed readiness to adopt the officers' recommendations.

In their closing remarks, Mr. Adarkwa-Addae and Mr. Adaboe encouraged the Kumasi team to sustain its momentum and continue aligning its efforts with the Authority's strategic objectives. They emphasized the importance of continuous improvement, collaboration,

and timely reporting as key pillars of regional success.

The visit reaffirmed GSA's dedication to performance monitoring.

As the Kumasi Office continues to serve the Ashanti Region, its efforts in implementing the 2024 Work Plan reflect the Authority's broader mission of promoting standards, ensuring quality, and building public trust nationwide.

GHANA
STANDARDS
AUTHORITY

GS 811:2025 – Cereals and Pulses – Specification for Fortified Hard Wheat Flour

Scope:

This Ghana Standard specifies the requirements, methods of sampling and test for fortified hard wheat flour prepared from hard wheat (*Triticum aestivum* L.) intended as ingredient for further processing.

Why Do You Need This Standard?

Application of this standard by manufacturers ensures the production of safe and quality products, consistency in production output, protection of consumers' health and safety, enhanced competitiveness and reduction in losses.

Summary of Content:

This Ghana Standard provides producers of milled cereal-based products with the specification for Fortified Hard Wheat Flour by providing information on relevant terms and definitions, requirements for quality,

contaminants, hygiene, packaging and labelling, sampling and testing, and criteria for conformity. **This standard has been technically reviewed. This is the third (3rd) edition. This edition cancels and replaces the second edition. Notable changes include:**

Clause 2 – The Normative references have been updated to reflect the current state of the Standard and to be in line with the current referencing style for the drafting of Ghana Standards.

Clause 4 – The requirement for sedimentation value specified in Table 1 has been modified. The required levels of fortificants for hard wheat flour specified in Table 2 have been updated using current data.

Clause 7 – The packaging requirements have been modified.

Technical assistance is provided to enhance understanding of the standard content.

This standard is available for **REFERENCE** and **SALE** at the Documentation and Information Centre, The Head Office, Ghana Standards Authority.

For further enquiries, kindly contact us at: **0302-500065/6; 506987**
